CSS Basics - Simple Layout

A learning experience

In this project we worked with CSS and we could see the difference in having just a file to change everything in a class or id, etc.
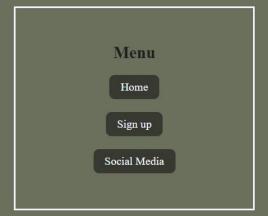

With this project we learned many CSS elements and attributes and how to use them in organized sections.

Sections in the layout where a challenge

WELCOME TO THE DESERT

No water for miles!
No shade!
OASIS?! Nope, just a mirage.

Explain why you have chosen the CSS3 rules and what contribution they have made to your project.

CSS3 Rule provided a cleaner code making it easier to read and made it simpler to change parts of the code to have easier workload.
